### **DETAILED ACTION**

This action is an Election/Restrictions in response to RCE and Amendments filed 03-19-2007.

Claims 1-20 are currently pending in this application. Claims 1, 6, 8, and 12 are independent claims.

#### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group (I)      Claims 1-5, 8-16, and 18-20, drawn to display processing,  
classified in class 715, subclass 526.

Group (II)     Claims 6-7, and 17, drawn to structure document in class 715,  
subclass 513.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention (I) has separate utility such as display processing; invention (II) has separately utility such as structure document (See MPEP § 806.05(d)).

Art Unit: 2176

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
